

Dedicated Internet Access (DIA)

Scalable, symmetrical bandwidth.
SLA-backed. 24x7 NOC monitoring.

Experience high performance and flexibility with DIA. Enjoy guaranteed bandwidth, reduced latency, and IPv6 readiness. As operations grow or adopt more cloud-based tools, DIA is primed to adapt. Continuous monitoring and swift issue resolution are standard, thanks to our 24x7 NOC and local technicians.

Speeds
50Mbps
to 10Gbps

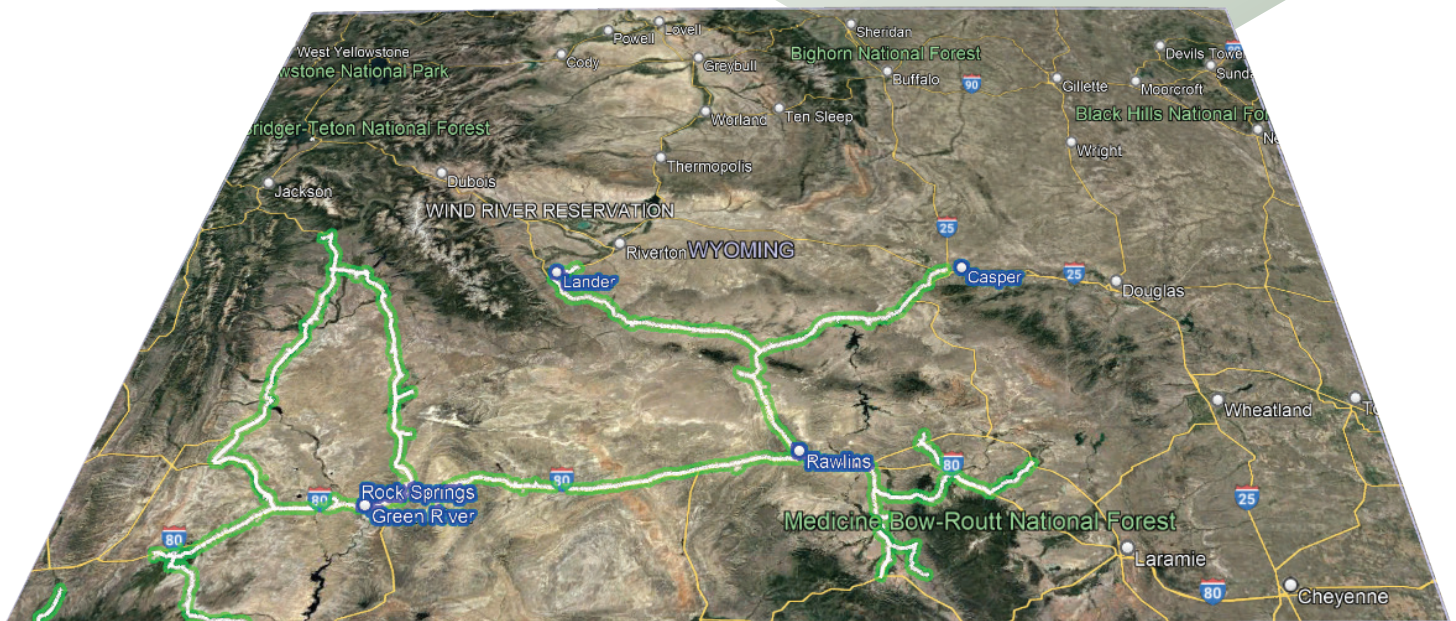

Features: Dedicated Internet Access - Your bandwidth connection to the Internet is not shared, providing reliably fast access.

- Synchronous Upload and Download Speeds - Internet upload and download speeds are the same, enabling consistent performance needed for online transactions to complete quickly.
- Bandwidth Scalability - DIA bandwidth can be increased to up to 10Gbps speeds, so there is plenty of room to increase bandwidth to meet increasing business demands.
- Carrier-Class Service Level Agreement (SLA).
- 24/7 network surveillance and monitoring - Our Network Operations Center (NOC) is located and staffed in Wyoming, providing 24/7/365 monitored support.

Ideal for ensuring consistent access for:

- **Cloud services**
- **Telehealth**
- **Managing remote work**
- **Enable Internet connectivity**
- **Backup and disaster recovery**
- **Facilitating high-quality VoIP and video conferencing and many more enterprise solutions.**

Available Across Union's Fiber Network
